Overview

Master's study programme of Public Management is aimed to prepare highly qualified specialists with expert knowledge and skills, public administration values and moral norms in the field of public administration, what would enable to act professionally and creatively in solving state and local government issues, to adapt and create public administration tools, to implement innovations in their professional fields, to improve learning skills necessary for further independent studies. Teaching and learning activities are student-centered and oriented to the interaction between the student and the teacher. Traditional study methods (qualitative analysis

of scientific literature, interactive lecture, demonstration) are combined with modern study and new knowledge creation methods (project, subject portfolio, conference with presentations, case study, concept map, group research, etc.).

Career opportunities

Graduates of Public Management can work managerial or administrative jobs and seek for the career in institutions of state and local government and public administration, in sectors of social services, health, education, economic activity, regional development and other sectors of public administration as well as to lead non-governmental organizations.

Access to the third cycle studies upon meeting requirements set by the accepting higher education institution.
